Professional Summary

Passionate front-end developer with hands-on experience from internships, tutoring, and a professional development role. Skilled in building responsive, high-performance web applications using React, Next.js, TypeScript, Tailwind CSS, React Query, and Zustand. Strong understanding of UI/UX design principles and accessibility standards. Built impactful, user-focused projects including a healthcare management system and an AI-powered image editing platform. Continuously learning, sharing knowledge, and eager to collaborate on innovative digital experiences.

Skills

Front-End Skills

- React, Next.js, TypeScript, Tailwind CSS, React Query, Zustand, JavaScript (ES6+), HTML, CSS, UI/UX Design, Responsive Design, Accessibility (a11y), Git

Tools

- Git, GitHub, Sentry, Appwrite, VS Code

Additional Skills

- Familiar with: GraphQL, NestJS, Prisma, PostgreSQL

Professional Experience

Front-end Tutor, *Green Value Computer College*

06/2022 – 10/2022

Tutored classmates in front-end development, helping them understand concepts like JavaScript, React, and other front-end technologies

Lagos, Nigeria

- Provided one-on-one guidance and organized coding sessions.
- Helped students build real-world projects and improve their skills.

Front-end Developer, *HNG*

06/2024 – 07/2024

Gained hands-on experience in front-end development during an internship at HNG, where I collaborated on projects, learned best practices, and contributed to building efficient web applications.

Lagos, Nigeria

- Assisted in developing responsive and user-friendly web interfaces.
- Technologies: HTML, CSS, JavaScript, React, Next.js, TypeScript.

Full-Stack Developer (Front-End Heavy), *Techbase*

04/2025 – present

Lagos, Nigeria

- Developed and maintained a modern, responsive web application for a device repair service using Next.js, React, and TypeScript.
- Implemented complex user interfaces with Tailwind CSS, React Query, Formik, and Yup, ensuring seamless user experiences across desktop and mobile devices.
- Integrated RESTful APIs for real-time data display, user authentication, and transaction management.
- Collaborated with backend developers and UI/UX designers to deliver new features, optimize performance, and resolve bugs.
- Utilized best practices in state management, code organization, and component reusability to ensure scalability and maintainability.

- Enhanced user engagement with dynamic dashboards, modals, notifications.
- Wrote clean, well-documented code and participated in code reviews to uphold high-quality standards.

Projects

Horizon, a financial SaaS platform [🔗](#)

08/2024 – 08/2024

Built a financial SaaS platform that connects to multiple bank accounts, allowing real-time transaction viewing, money transfers, and overall finance management.

- Created a secure user authentication and bank connection system.
- Technologies: Next.js, TypeScript, Zustand, Dwolla, Plaid API.

Carepulse, a healthcare patient management system [🔗](#)

07/2024 – 07/2024

Developed a healthcare patient management system using Next.js and TypeScript. Carepulse simplifies patient registration, appointment scheduling, and medical records management for healthcare providers, with SMS notifications and an admin dashboard for efficient management.

- Integrated real-time appointment scheduling and patient data management.
- Technologies: Next.js, TypeScript, Tailwind CSS, Appwrite.

Imaginify, an AI image-processing SaaS platform [🔗](#)

09/2024 – 09/2024

An AI image-processing SaaS platform built with Next.js, providing advanced features such as image restoration, recoloring, and background removal. The platform integrates secure payments and powerful search functionalities.

- Integrated AI-powered image manipulation tools.
- Technologies: Next.js, TypeScript, MongoDB, Cloudinary.

About Me

I'm deeply passionate about technology and its potential to solve problems for people. I have pursued my education in this field with determination, even taking out loans to fund my studies. I believe in the importance of lifelong learning and am continually seeking to enhance my skills. I enjoy tutoring others and helping them grow as developers as well. What drives me is a growth mindset. I'm passionate about mastering my craft and continuously learning to deliver impactful results

Education

Front-end Development Certificate, Green Value Computer College

05/2022 – 11/2022

Focused on building web applications and responsive design.

Lagos, Nigeria
